Subj: Star People Quiz

Are you a "Star Person?" This quiz is based on a list of characteristics of people that Brad Steiger seems to think might have a touch of the star-brush in their background (i.e. alien genes). The list was found in a 'zine called "Psychic & UFO Revelations in the LAST DAYS" by Timothy Green Beckley (1980). (I found a bunch of old UFO stuff at a garage sale. :-)

1. Do you have an unusual blood type?
2. Do you have a lower than normal body temperature?
3. Were you an "unexpected" child?
4. Do you have an extra vertebrae and lower back problems?
5. Do you seem to be hypersensitive to electricity, electromagnetic force fields?
6. Do you have unusually sharp hearing and light-sensitive eyes?
7. Did you feel that your mother and father were not your real parents?
8. Do you complain of feelings of great urgency, like you have only a short time to complete tasks?
9. Do you have low blood pressure?
10. Do you have chronic sinusitis?
11. Do you feel that your true ancestors came from another world or dimension and yearn to go back?
12. Did you have unseen companions as a child?
13. Do you have natural talent for art, music, healing or acting?
14. Do you experience a buzzing or clicking noise in your ears prior to, during some psychic events?
15. Did you have an unusual experience around the age of five which may have taken the form of a white light, or a visitation by human-type beings who gave information and comfort?
16. Have you maintained a continuing series of experiences with "angels", "elves", "masters", or admitted UFO intelligences?
17. Do your dreams and/or artwork involve multi-moon environments?
18. Are children and animals attracted to you?
19. Do you do your best work at night?

UNUSUAL REPORT OF A UFO AND A GREEN-FACED ENTITY  
SEEN NEAR AN OLD U.S.A.F. NIKE MISSILE BASE

DATE: June 24, 1988

TIME: Sometime between 12:30 and 2:00 A.M. Pacific Daylight Time

LOCATION: Redmond, Washington

DURATION: Estimates vary, around 7 minutes for sighting of UFO;  
about 45 minutes total duration including sighting of  
face, possibly longer

SOURCE OF SIGHTING: UFO Information Service (Goudie)

INVESTIGATORS: Donald A. Johnson, Ph.D., MUFON  
Don Olson, MUFON  
Rita Andreeva, MUFON

Four 11-year-old girls who had attended a private Christian elementary school together were having a slumber party reunion at the home of one of the girls on Education Hill in Redmond, Washington. At a few minutes after either 12:30 AM or 1:30 AM they were looking out the window to see if they could find the girl's dog. They were downstairs in the TV room, while the parents and brother and sister of the host were asleep upstairs. They witnessed a craft-like UFO, described as either a domed-disc or two plates put together edge-to-edge, hovering in the night sky. It had white and red lights and possibly faint green lights around the rim of the object. Of the two girls interviewed, both thought right away that it was a UFO (i.e. "spacecraft"), and not an aircraft because it was similar to a picture they had once seen in a book.

The UFO was hovering at about 30 degrees above the horizon when first sighted. It was described as smaller than a house in size, possibly 25 feet in diameter. The UFO moved to the right horizontally about 10 degrees, reversed direction abruptly and moved back in a straight line to the left 10 degrees, moved back to the right 5 degrees to a center position, and then moved really fast straight down. It moved down behind some tall evergreen trees and the girls thought that it probably came down in a clearing in Nike Park, about 3-4 blocks from the girl's home where they were staying. The UFO was reported to be visible through the window of the TV room for a total of between 2 and 7 minutes.

Some time later, within 15 minutes to a half an hour, two of the girls witnessed a frightening face. The accounts of how the face appeared to them varies. In one account the girls thought they saw something like a shadow or a figure at the top of the stairs leading up to the kitchen. The became scared and hid in their sleeping bags; they zipped them over their heads and lay next to each other. They conversed through the bags and agreed to look at the same time, so that it would not be too scary. As they pulled the bags down from over their heads they saw a dark, mossy green face only about arm's length away. Really frightened, one of the girls pulled the sleeping bag over her head, and when she looked out again in a few minutes, the being was gone. The other girl's account said they were lying on their backs trying to get to sleep and staring up at the ceiling when all of a sudden they both saw this green face. She watched it for

about 45 seconds, "and then it just, went away". Asked if it just vanished like it was a slide from a projector or something, she said, no, it wasn't like that. It was just like a real face, but it was green in color and it was looking at them. The second girl appears to be unclear about how the face appeared because she also reports she covered her head with the sleeping bag at one point but can't remember when.

The face was described as greenish in hue, with red, glowing eyes. Interviewed separately, both of the girls said there was something like a dent in one of the cheeks. One girl said it looked like the "face on Mars" photograph she saw in the newspaper about a week later, while the other girl said it had pointy ears and bushy eyebrows. When asked a direct question later about the pointed ears, the second girl said she didn't remember any ears. If the face had indeed been attached to a body, one girl figures that the being must have been about 3 1/2 to 4 feet tall.

About 10 to 15 minutes later the second girl, who lived there, saw a clump of rainbow colored lights slowly revolving in her kitchen and flashing light all over the ceiling and refrigerator. The first girl made a vague reference to lights in the kitchen but apparently did not see the rainbow-colored clump of lights hovering in the kitchen (the kitchen is partially visible from the TV room, up half a flight of stairs).

The girls became noisy discussing what they had seen woke the mother. The mother came down and ordered them to go to sleep. Apparently nothing further happened that night.

Of the other two girls, they are certain that one saw what they saw but would not consent to be interviewed by UFO investigators. They are unsure what the fourth girl saw. The second girl, the one at whose home the events occurred, reported that she had had a precognitive experience during that previous day, recalling during a croquet match that she had dreamed those exact events some weeks before. She also reports that since the UFO incident she is no longer subject to nose bleeds, which she reports have occurred to her chronically throughout her life and also occur with her father. She also said that a soccer injury to her knee no longer gave her any pain after the encounter, and she attributes the healing to the event.

The neighborhood in which her home is located borders an old Air Force Nike Missile base. Part of the property is now a Washington State National Guard facility, part of it is deserted and belongs to the local school district, and part of it has been converted to a park. We talked to a staff sargent on the National Guard base who reported that he was sleeping at the base on the night in question and recalls nothing unusual. He reported that light aircraft tend to use the base as a landmark and so overflights are frequent, and, during the daytime hours, hot air balloons frequently come over the base from the Sammamish River valley to land in some clearings to the east.

Tired of reading about the usual saucers and greys?

Take a look at GHOSTS OF THE AIR, by Martin Caidin. It's about paranormal incidents which involve aircraft.

Caidin goes from ghostly pilots through pilotless aircraft to a precedent for the famous Valentich disappearance. He also fires a delightful preemptive broadside at CSICOP.

This is an excellent book about just that subject. Well annotated, with extensive bibliography, it obviously took a long time to put together. Also, I must congratulate myself on the citation, something we could all use a bit more of around here - thast is, actual sources cited, not just "I heard...."

I received from Wendelle Stevens his new magazine called "UFO JOURNAL OF FACTS". It's a must for your reading pleasure. The magazine is loaded with some fine high quality pictures from his collection of phot's. Also the articles that are printed are very interesting. One of the articles is about a person that we hear on the BBs name Phil from Pensacola, FL.

This is a quarterly magazine and the price is \$19.95 per year. To inquire about getting this, write or send your money to:

Subj: SMEAR

SAUCER SMEAR is an irregular newsletter type of thing edited by Jim Mosely according to my latest info (1988). From what I understand, most of it is devoted to a letters section where UFO researchers delightedly trash one another's most cherished theories. I don't know if you can get an ordinary subscription, but if you send a couple letters that make him think you're funny enough or scrappy enough to add something to the fray, you'll get onto the list. It sounds terrific. Here's the address, if you're interested.

Subj: Questions on Clear Intent (Fawcett & Greenwood)

I just finished reading CLEAR INTENT: THE GOVERNMENT COVERUP OF THE UFO EXPERIENCE by Lawrence Fawcett and Barry J. Greenwood. This is definately the icing on the cake and I'm glad I read it \_after\_ reading Above Top Secret (Good).

The 1st question I want to ask is: What's next? Where are all the FOIA documents \_after\_ the mid-to-late 70's? How successful was Ronald Raygun in castrating the FOIA process? Instead of those questions, can someone just point me in the right (published) direction?

The word "meaconing" (pg. 86), in reference to an article published in MIIJ Quarterly (3Q/1978, Headquarters Electronic Security Command) is apparently an Air Force classified word! How can anybody classify a word? What does it mean? (Does the 'M' stand for microwave?)

Whatever became of the Cash/Landrum lawsuit against the US Gov't? Whatever became of Cash/Landrum?

In an September 24, 1952, memo from the CIA's Assistant Director of Scientific Intelligence to the CIA Director regarding the national security implications of UFOs, there's the following reference: "CIA consultants stated that these solutions would probably be found..., with the added possibility that the present dispersal of nuclear waste products might also be a factor." (pg. 124) Does anyone know what this reference to nuclear waste might mean? This is the first and only time I've come across this idea, does anyone know of other references?

"Science stands for the investigation of the unexplained; not the explanation of the uninvestigated." (pg. 128) Excellent, outstanding quote...

I don't remember the page number, but there is a reference to Dr. Paul Bennewitz (I think it was him) taking pictures of UFOs using some special film and/or developing process with a telescope, and silhouetting the shots against the Moon. Is this verified? How could this method yield a useful photograph? What has become of Bennewitz? What has become of all his photos and videotape?

This last question is a huge question and I won't be bothered a bit if it is ignored. Given the near total infiltration of NICAP by the CIA, what is the supposed 'condition' of MUFON and/or CUFOS regarding similar 'outside' involvement? Given the government's apparent position of a national security threat posed by UFOs, or at least a national security embarrassment, should 'outside' involvement be considered bad/wrong?

Subj: Contact UFO

CONTACT UFO will be (hopefully) hitting store shelves within two or three months. My name is Lou Zucaro, and I am the Assistant Producer for the video series. My colleagues and I have been working for some time on this project, and we're really very excited about it. It will be distributed by our parent company, MPI Home Video (a trip to your local video store should reveal at least a few MPI titles, and if not, I'd be glad to send you a catalog). Keep in mind, however, that almost all of the titles by MPI are just distributed by them, not produced by them. Contact UFO is different. We've shot interviews and scenics at the 1990 MUFON symposium, the Rocky Mountain UFO Conference in Laramie, Gulf Breeze (although I'm still not sure why...), Alamogordo New Mexico, and Roswell. We're still shooting a few last minute things here in the Chicago area (interviews) and we hope to have the program finished by the second week in February.

The first tape in the series is on abductions, and we think people will find it very interesting. I would really like to hear from anybody who has any questions I might be able to answer on the subject (not that I'm an encyclopedia on the subject or anything, but I do get to spend 40 hours a week doing research - a benefit of doing a UFO project at work).

And, if anybody has any information on where I might be able to find any of the following people, please let me know...

Wayne S. Alhold  
Lenora Croft  
Carl Anderson  
Hunno Mayberry  
MaryAnne Francis  
Chief Frank Buckshot StandingHorse (yes, that's his name)

Any leads, no matter how tiny, will be greatly appreciated.

#### CITIZENS AGAINST UFO SECRECY

CAUS was created in 1978 to battle what we perceive as unjustified government secrecy in relation to UFO's. Through Freedom of Information Act requests and several court cases, which at one point reached the Supreme Court of the United States in 1980 (CAUS vs. NSA), we have obtained approximately 5,800 pages of files on UFO's from many Federal agencies, FBI, CIA, NSA, DIA, USAF-OSI, Department of State, Navy and Army Intelligence.

Some of these were published in our newsletter, "JUST CAUSE", which appeared between May 1978 and January 1982. The newsletter has been inactive for almost three years but it is now being revived as a result of extraordinary interest generated by the book, "CLEAR INTENT".

For the time being, JUST CAUSE new series will appear soon as a quarterly newsletter of at least four pages, double-column with interim bulletins as stories develop. Subscriptions will be \$10.00 per year (\$15.00 foreign subscriptions).

Most of the subscription cost will be used to fund FOIA requests to government agencies, pay search and reproduction fees incurred in such requests and aid in financing court costs for especially interesting information on UFO's.

Without the help of concerned persons, like yourself, CAUS cannot do the work

it has to do to get to the bottom of the UFO mystery. There is strength in numbers so let our united voices be heard!

-----

TITLE: Real(?) Alien pictures on Entertainment Tonight...

+From : jtb@iotm.ttank.com (John P. Gibbons)

+Subject : Real(?) Alien pictures on Entertainment Tonight...

I am absolutely amazed that no-one has brought this up yet, but about two weeks ago entertainment tonight (for those who don't know the show, it's just a tv program about entertainment! :-)).. Anyway, they talked about this German documentary on UFO's that claimed to have the first REAL pictures of US captured alien beings.. They showed these pictures on the program, and I did video tape it btw.. Anyway they very well could be frauds, and I honestly suspect they are. Although they did look real and convincing, I doubt that anything will come of it..

So what I am asking is this, has anyone else seen these pictures? Or seen the documentary.. Better yet does anyone know if any quality studies have been made to check for hoaxes or what have you? It would be really fantastic if this thing is real, but as a skeptic (and a ufo/paranormal buff, yes you CAN be both) I really doubt they're more than the MJ-12 documents turned out to be..

-----  
I just reviewed the video tape of the program.. First off the name of the documentary is, "Miracle of the Unknown".. They claim that this is

"Proof" for the existance of UFOs/alien visitors.. Also the photo's are marked top secret (sound familiar? :-)).. Btw, they said that this alien has been held at an airforce base since 1947.. Sounds like roswell to me..

I am sure people are going to want to know what it looked like, so I will do my best to describe it..

Short, probably the typical 4 - 4 1/2 feet tall.

Silver Jump suit

Flesh tone white (not grey) skin

Large closed eyes (I think it was supposed to be dead)

Slit for a mouth

Normal looking ears (I didn't think the little grey guys had ears! ;-))

Small nose, but still larger than typically described by the ufo crowd.

I couldn't really see the hands, but the fingers apeared to be long..

It was lying on a table and as I said, it looked quite dead.. Rather sickly looking actually.. Which I suppose in some way may makes it more convincing..

At any rate I am sure that someone must know something about this thing and hopefully we can either disprove it right away with absolutely no doubt, or perhaps we will have ourselves some quality evidence..

Thanks,

John
